Town of Florida Site Plan Submission Requirement Checklist

Site Plan shall be prepared by a surveyor, registered professional engineer, architect, or landscape architect at a scale of one inch (1") equals twenty feet (20') or less, on standard 24"x 36" sheets.

- _____ 1) A completed and signed application to the Planning Board (including this checklist and all information required hereon).
- _____ 2) If the property is a farm operation within a NYS Agricultural District or with boundaries within 500 feet of a farm operation located in a NYS Agricultural District, the applicant must complete and submit (with this application) an Agricultural Data Statement (NYS Ag. & Markets) (see attached Appendix A).
- _____ 3) A completed part 1 of an Environmental Assessment Form (either short or full form, depending upon the nature of the proposal and in conformance with the New York State Environmental Quality Review Act SEQR (6 NYCRR 617), (see attached forms in Appendix B).

In addition each submitted site plan shall include:

- _____ 4) Name of the project, boundaries, location maps showing site's location in the town, date, north arrow and scale of the plan.
- _____ 5) Name and address of the owner of record, developer, and seal of the engineer, architect, surveyor or landscape architect.
- _____ 6) Name and address of all owners of record of abutting parcels and those within five hundred feet (500') of the property line.
- _____ 7) All existing lot lines, easements, and right-of-ways. Include areas in acres or square feet, abutting land uses, and the location and size of structures within five hundred feet (500') of the site.
- _____ 8) The location and use of all existing and proposed buildings and structures within the development. Include all dimensions of height and floor area, and showing all exterior entrances, and all anticipated future additions and alterations.
- _____ 9) The location of all present and proposed public and private ways, parking areas, driveways, sidewalks, ramps, curbs, fences, paths, landscaping and walls. Location, type and screening details for all waste disposal containers shall also be shown.
- _____ 10) The location, height, intensity and bulk type (ie. Fluorescent, sodium incandescent) of all external lighting fixtures. The direction of illumination and methods to eliminate glare onto adjoining properties must be shown.
- _____ 11) The location, height, size, materials and design of all proposed signage.
- _____ 12) The location of all present and proposed utility systems including:

- a. Sewage or septic systems
- b. Water supply systems
- c. Telephone, cable and electrical systems
- d. Storm drainage systems including existing and proposed drainage lines, culverts, catch basins, headwalls, end walls, hydrants, manholes, and drainage swales

The planning board may also require soil logs, soil profile analysis (deep hole test pits), percolation tests and storm water run-off calculations for large developments or developments in environmentally sensitive areas

- _____ 13) Plans to prevent the pollution of surface or groundwater, erosion of soil both during and after construction, excessive runoff, excessive raising or lowering of the water table, and flooding of other properties, as applicable. There shall be pre and post drainage calculations for the site done by a certified engineer. From this the engineer must show how there will be no increase in runoff from the site. The use of ponds, dry wells, ect. Shall be used, but all sites shall have zero increase in runoff so as not to disturb neighboring properties
- _____ 14) Existing and proposed topography at five foot (5') contour intervals. All elevations shall refer to the nearest US Coastal and Geodetic Bench Mark. If any portion of the parcel is within the 100-year floodplain, the area will be shown, and base flood elevation given. Indicate areas within site where ground removal or filling is required, and give its approximate volume in cubic yards.
- _____ 15) A landscape plan showing all existing natural land features, trees, forest cover and water sources, and all proposed changes to these features, including size and type of plant material, and erosion control measure. Water sources will include ponds, lakes, brooks, streams, wetlands, floodplains, and drainage retention areas.
- _____ 16) Traffic flow patterns within the site, entrances and exits, loading and unloading areas, curb cuts on the site and within two hundred feet (200') of the site.

The planning board may require a detailed traffic study for large developments or for those in heavy traffic areas to include:

- a. The projected number of motor vehicle trips to enter or leave the site, estimated for daily and peak hour traffic level;
 - b. The projected traffic flow pattern including vehicular movements at all major intersections likely to be affected by the proposed use of the site;
 - c. The impact of this traffic upon existing abutting public and private ways in relation to existing road capacities. Existing and proposed daily and peak hour traffic levels as well as road capacity levels shall also be given.
- _____ 17) For new construction or alterations to any existing building, a table containing the following information must be included:
 - a. Area of building to be used for a particular use such as retail operation, office storage, ect.;
 - b. Maximum number of employees;
 - c. Maximum seating capacity, where applicable;
 - d. Number of parking spaces existing and required for the intended use
 - _____ 18) Elevation plans at a scale of $\frac{1}{4}''=1'$ for all exterior facades of the proposed structure(s) and/or existing facades, plus addition(s) showing design features and indicating the type and color of materials to be used.

**Town of Florida
Site Plan Approval Checklist**

Applicant: _____

Date Completed

1. Pre-Submission Conference is held between the Code Enforcement Officer and the Applicant _____

2. Nine (9) copies of the Site Plan and Application are submitted to the Code Enforcement Officer accompanied by the required fee _____

Code Enforcement Officer: _____
(signature)

3. Within ten (10) days of submission by the applicant, the Code Enforcement Officer certifies whether or not the application is complete and is in conformance with the Town's Zoning Ordinance _____

The Code Enforcement Officer forwards the complete application to the Planning Board Chairman no later than twenty (20) days prior to its meeting _____

4. Planning Board reviews Site Plan Application and declares intent to be Lead Agency (SEQR); sets public hearing date and notifies applicant _____

5. Planning Board refers Site Plan to County Planning Board (if applicable) _____

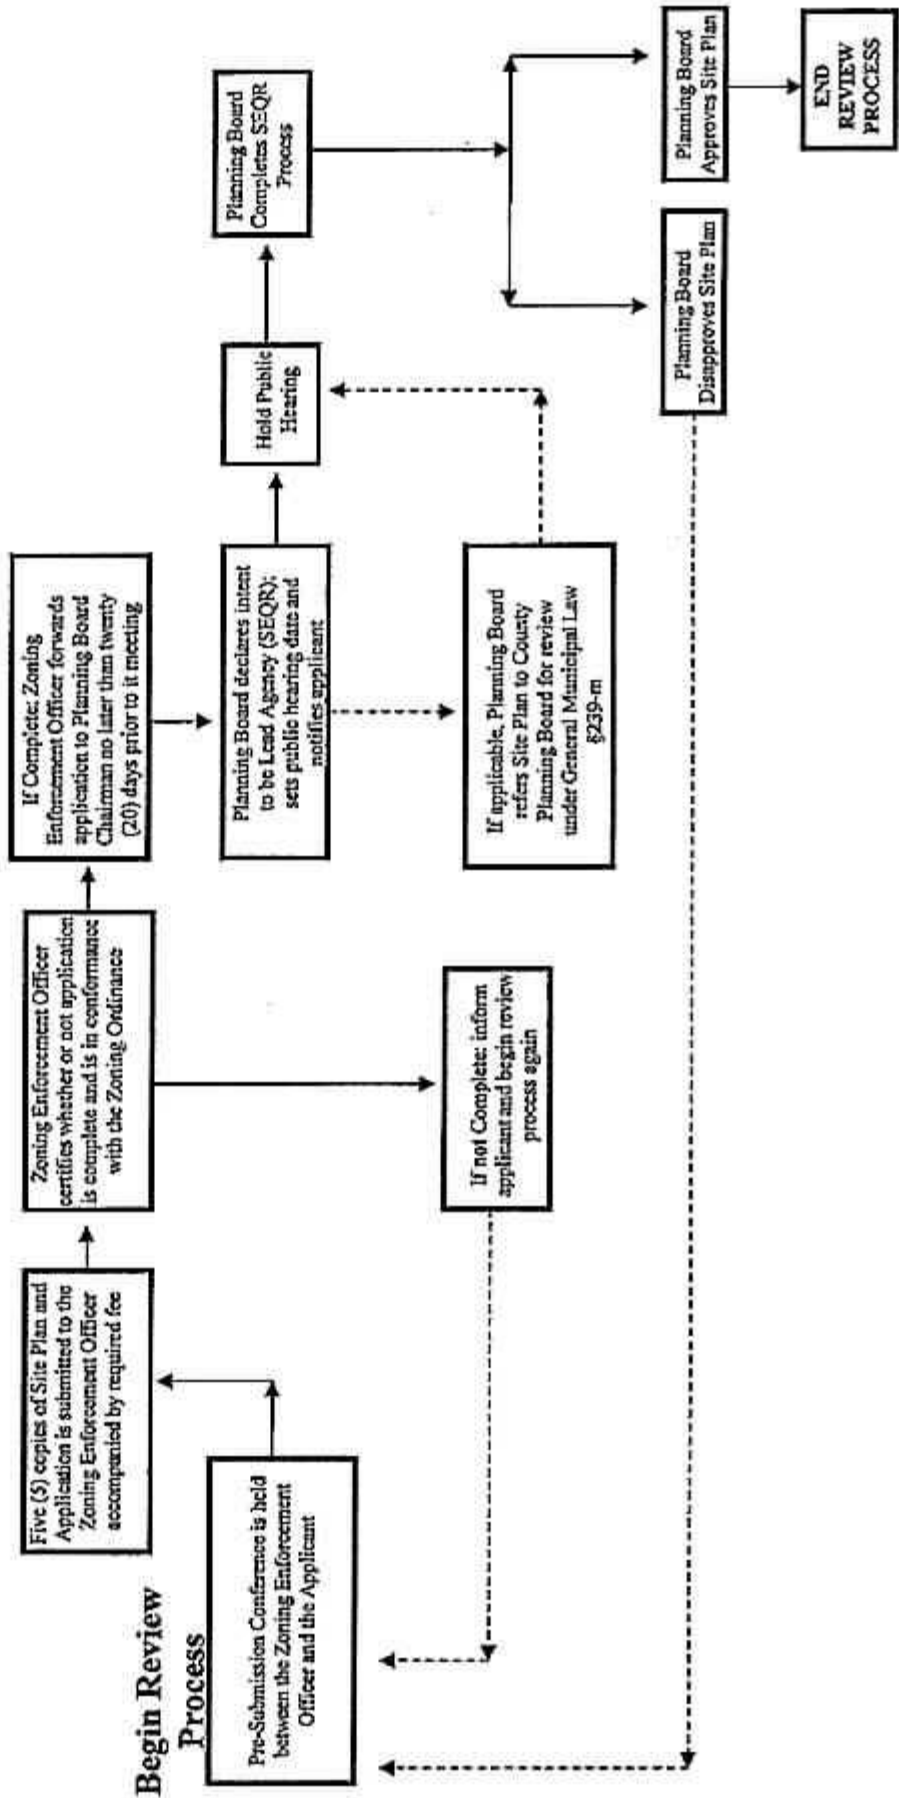

6. Hold Public Hearing _____

Planning Board completes SEQR process, and files all documents as required by law _____

7. Planning Board approves, conditionally approves, disapproves Site Plan _____

8. Planning Board files all documents as necessary _____

Town of Florida Site Plan Approval Flow Chart

State Environmental Quality Review Act (SEQR) Forms

All Downloadable SEQR Forms are PDF Files

The Environmental Assessment Forms (Appendices A and B) should be used (as of October 7, 2013) for applications to be submitted to reviewing, funding or approving agencies. **If you are new to filling out the EAFs or using the EAF Mapper, or have questions about how to use them, we recommend that you begin with the [Environmental Assessment Form \(EAF\) Workbooks](http://www.dec.ny.gov/permits/90125.html) at <http://www.dec.ny.gov/permits/90125.html>. You may also want to view [The New EAFs - EAFs for the 21st Century \(PDF\)](http://www.dec.ny.gov/docs/permits_ej_operations_pdf/eafwebinar.pdf) at http://www.dec.ny.gov/docs/permits_ej_operations_pdf/eafwebinar.pdf, which is a training program on using the new (2013) Environmental Assessment Forms, Workbooks and EAF Mapper. EAF forms can be filled out and saved with Acrobat Reader.**

- [EAF Mapper Application](http://www.dec.ny.gov/eafmapper/) at <http://www.dec.ny.gov/eafmapper/>, (will generate partially filled-in EAFs) The EAF Mapper Application is an Internet-based Geographic Information System (GIS) specifically designed to facilitate the NY State Environmental Quality Review (SEQR) process by answering geographic or place-based questions on the Short and Full Environmental Assessment Forms (EAFs). The EAF Mapper will provide its results by directly filling out many place-based questions in Part 1 of an electronically fillable SEAF or FEAF form and returning the partially completed form to the applicant or sponsor to finish. If you are using the EAF Mapper, do not complete any part of a PDF for either the SEAF or FEAF first. Rather, start with the EAF Mapper and wait for the program to fill in the various answers, then save the document to your computer and continue completing the forms from there. If you start a PDF before running the EAF Mapper, any information entered will be lost when the program applies its GIS data. [Help in using the EAF Mapper application](http://www.dec.ny.gov/EAFHelp/) at <http://www.dec.ny.gov/EAFHelp/>, is located on the EAF Mapper Application's main page next to "feedback". Additional guidance can be found in the [EAF Workbook](http://www.dec.ny.gov/permits/90201.html) at <http://www.dec.ny.gov/permits/90201.html>, under the subsection "Using the EAF Mapper".

TOWN OF FLORIDA PERMITS

SCHEDULE OF FEES

APPROVED FEBRUARY 22, 2016

TYPE:	PERMITS ARE REQUIRED FOR ALL BUILDINGS AND SITE DRAWINGS AS REQUIRED BY BLDG. INSPECTOR	FREE:	INSPECTION REQUIRED: (Arranged by Inspector)
GENERAL:			*Additional Engineering may be required at Applicant's Expense
Storage of lumber, scrap, etc. from the property to be kept under roof and in screened fences		\$50	Building Inspector *
Storage Yards - Auto Salvage - etc.		\$25 per year	Building Inspector *
Demolition - Non Commercial (Permit required)		\$25 per structure	Building Inspector *
Demolition - Commercial [Permit required]		\$100 per structure	Building Inspector *
Refuse - requires Dump Permit		\$50 1st car/ \$25 2nd car	None
Solid Fuel and Chimney		None (State Regulated)	Town Fire Marshal/ Building Inspector *
Septic Systems - Designed by NYS Professional Engineer		\$100	Building Inspector and Responsible Professional Engineer *
HOUSES:			
Living Space - up to & including 1,000 - 2,000 sq. ft.		\$150	Building Inspector *
Living Space - over 2,000 and including 2,500 sq. ft.		\$175	Building Inspector *
Living Space - over 2,500 sq. ft.		\$250	Building Inspector *
NON-LIVING SPACE:			
No Floor Outbuildings or No Floor Garage or Enclosed Porch - under 100 sq. ft.		None	Building Inspector - Electrical Inspection if Required *
No Floor - Shed up to 12' x 12'		\$50	Building Inspector - Electrical Inspection if Required *
No Floor - Garage or Enclosed Porch including 100 sq. ft. and over		\$50	Building Inspector - Electrical Inspection if Required *
No Floor Outbuildings - Including 100 sq. ft. and over		\$75	Building Inspector - Electrical Inspection if Required *
With Floor Outbuildings or With Floor Garage or Enclosed Porch - under 100 sq. ft.		None	Building Inspector - Electrical Inspection if Required *
With Floor - Shed up to 12' x 12'		\$75	Building Inspector - Electrical Inspection if Required *
With Floor - Garage or Enclosed Porch including 100 sq. ft. and over		\$75	Building Inspector - Electrical Inspection if Required *
With Floor Outbuildings - Including 100 sq. ft. and over		\$100	Building Inspector - Electrical Inspection if Required *
Decks or Porches - up to 160 sq. ft.		\$50	Building Inspector *
Decks or Porches - Including 160 sq. ft. and over		\$75	Building Inspector *
Non-Commercial Improvements - w/ Structural Changes up to and including \$10,000		\$50	Building Inspector *
Non-Commercial Improvements - w/ Structural Changes over \$10,000		\$100	Building Inspector *
Non-Commercial Improvements - up to and including \$10,000 NOT requiring a Structural Change (siding, roofing, windows, doors, etc.)		\$25	Building Inspector *
Non-Commercial Improvements - over \$10,000 NOT requiring a Structural Change (siding, roofing, windows, doors, etc.)		\$50	Building Inspector *
Swimming Pools - In ground		\$100	Building Inspector *
Swimming Pools - Above ground		\$25	Building Inspector *
Wood Burning Heater		Regulated by NY State	Town Fire Marshal/ Building Inspector *

COMMERCIAL BUILDINGS:			
Agricultural Buildings		50% of Commercial Rates / Maximum - \$150	Building Inspector *
Communication Facilities - New		\$1,500	Building Inspector *
Communication Facilities - Repairs/Upgrades		\$250	Building Inspector *
Places of Assembly		\$250	Building Inspector *
Public Utilities - New		\$1,500	Building Inspector *
Public Utilities - Repairs/Upgrades		\$250	Building Inspector *
Retail/Office - NEW, ADDITIONS, IMPROVEMENTS (Store, Motel, Medical Offices, Restaurant, Service Center)		\$200 minimum or \$0.025 sq. ft.	Building Inspector *
Warehouse - Temperature Controlled - New (Distribution/Light Manufacturing)		\$400 minimum or \$0.025 sq. ft.	Building Inspector *
MISCELLANEOUS FEES:			
Billboard - Annual Fee		\$25	Building Inspector *
Billboards - Off Premises - Annual Fee		\$35	Building Inspector *
Enclosed Portable Storage (Pods, etc.) - up to 180 days		\$45	Building Inspector *
Open Storage - No building (Hear/RV, any fenced Storage)		\$50	Building Inspector *
Sign - Application Fee		\$25	Building Inspector *
Signs - Off Premises - Annual Fee		\$25	Building Inspector *
Solar/Wind under and including 30,000 Watts		\$100	Building Inspector and Professional Engineer *
Solar/Wind over 30,000 Watts and including 500,000 Watts		\$250	Building Inspector and Professional Engineer *
Solar/Wind greater than 500,000 Watts (each additional or part of 500,000)		\$250	Building Inspector and Professional Engineer *
Subdivision/Site Plan - Major		\$500	Procedures on Individual Basis *
Subdivision/Site Plan - Minor		\$100	Procedures on Individual Basis *
Zoning Board of Appeals		\$50	Procedures on Individual Basis *
Inspection Revisit Fee		\$25 each extra visit	Abnormal number of Inspection/Visits will incur extra charge
